

GeraceMeeting

Social Cognitive Affective Neuroscience
Lab - agliotilab.org

27 – 28 of May 2015

Gerace

Brain Coral – “The breaking of a wave cannot explain the whole sea.” *Vladimir Nabokov*

Wednesday 27th of May

Reward and Empathy (Chair: Patrizia Chiesa, Martina Fusaro)

- 9.30-10.05 Bhisnadev Chakrabarti
“Reward, mimicry, and autism”

-10.10-10.45 Janina Neufeld “Eyetracking and fMRI studies on the rewarding nature of mimicry”

Break 10.45-11.00

-11.00-11.35 Irene Trilla Gros “Reward driven plasticity of the mirror system: Evidence from an EEG study”

-11.40-12.10 Valentina Nicolardi “How do we feel what we don't know? A project proposal with Congenital Insensitivity To Pain patients”

Lunch 12.15 – 14.00

Complex emotions (Chair: Mariagrazia D'Ippolito)

-14.00-14.35 Giorgia Ponsi "The role of affective priming in a social categorization task: behavioral and autonomic data"

-14.40-15.15 Marco Tullio Liuzza
"Observing immoral actions: the role of individual differences. An fMRI study"

Behavioural effects of damage to the central nervous system (Chair: Daniela D'Imperio)

-15.20-15.55 Michele Scandola
"Peripersonal space plasticity in spinal cord injuries"

-16.00-16.35 Loredana Canzano "Seeing the little splinter in another's eye but not seeing the beam in their own"

Break 16.35-17.00

From face perception to identity
(Chair: Adriano Acciarino)

-17.00-17.30 Giusi Porciello “Face perception and brain stimulation”

-17.30-18.00 Ilaria Bufalari “The self and the brain”

Thursday 28th of May

Neurocognitive bases of social inter-actions (Chair: Ilaria Minio Paluello, Gaetano Tieri)

-13.00-13.35 Matteo Candidi "Joint actions in brain damaged patients"

-13.40-14.10 Arianna Curioni "Learning to predict: do motor interactions help us to predict the other?"

Break 14.15-14.30

-14.35-15.05 Lucia Sacheli "Do shared goals matter? Role of aIPS in joint action"

-15.05-15.35 Vanessa Era "Neural underpinnings of human-human joint actions"

Break 15.35-16.00

Erro ergo gnosco: phenomenology and electrocortical correlates of error detecting (Chair: Elia Valentini)

-16.00-16.35 Giuseppe Spinelli "Is error monitoring a graded or an all-or-none process? An EEG study in Immersive Virtual Reality"

-16.40-17.10 Gabriele Fusco
“Modulating the Monitoring Error System during the Flanker Conflict: a tACS study”

Key Discussants:
Salvatore M Aglioti, Beatrice de Gelder, Franco Fabbro, Lucia Mannetti, Valentina Moro.

Organization Committee:
Vanessa Era, Arianna Curioni, Paola Trussardi.
